

# Manitoba Take-Home Naloxone Kits

---

## WORRIED ABOUT OPIOIDS?

---

Manitoba take-home naloxone kits are free for people at risk for opioid poisoning and their family and friends.

Naloxone can reverse overdose or poisoning caused by opioids drugs, including fentanyl, heroin, morphine, hydromorphone, oxycodone, codeine and "down" (a mixture of heroin and fentanyl).

---

**You should still call 911 immediately if you suspect a drug overdose or poisoning.**

---

## NO JUDGEMENT HERE

Carrying naloxone means that you care about others. Ask us about a free naloxone kit and how to use it.

Naloxone for use in the workplace is not covered under this program, but can be purchased at some pharmacies. Ask your employer about naloxone for occupational use.
